

HCCEM TEST ARTICLE

Testing Articles, Images and PDF Attachments

This synthetic PDF is created only to test the HCCEM content management system. It verifies that an administrator can attach a PDF to an article, upload it to R2, display the PDF action on the article detail page, and download the file successfully.

Test checklist

- Main image upload
- Additional image upload
- Article detail rendering
- PDF upload to R2
- PDF download link
- Arabic/English article metadata
